Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed April 26, 2004 have been acknowledged.
2. The rejection of claims 1, 2, 5-6 and 8-12 under 35 U.S.C. 103(a) as being unpatentable over Baldo et al., U.S. Patent Number 6,097,147 in view of JPA 07-169567 is withdrawn due to applicant's argument.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 5-6 and 11-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The language of claim 5 is not fully supported by the original disclosure. Based on page 16 and Figure 4, the language "wherein a space is defined . . . of the substrate as recited in lines 6-8 of claim 5 does not appear to be fully supported. It is unclear from the original disclosure that a space is defined between the first and second devices.
5. Claims 1-2 and 8-10 are allowed. The prior art does not provide for a luminescence device, comprising: a substrate, an anode disposed on the substrate, a plurality of organic layers disposed on the anode, which include at least a luminescent layer, an exciton diffusion

prevention layer and an electron injection layer, and a cathode disposed on the electron injection layer, wherein the exciton diffusion prevention layer and the electron injection layer include an oxygen absorbent.
